SEIZURE OF THE PACIFIC ISLANDS

By Japan, Means War That
Will Doom Her,

PREDICTS MAJOR GEN. MILES

Could Not Cope With Our
Endless Resources and
Able Defense.

HIS PATRIOTISM IS ROUSED

Washington, March 18.—Japan could easily take possession of the Pacific islands under existing conditions, Major General Nelson A. Miles, retired, formerly ranking General of the United States Army, declared to-night.

General Miles was discussing the article by Count Von Reventlow, published this morning, and its prediction of ultimate war in the not remote future between Japan and the United States. Replying to the direct question if Japan could take possession of the Pacific islands, General Miles said:

"Yes, they could. The Philippines, Hawaii and Guam in their present condition are a source of weakness to us. But the instant they were seized war would begin. Its character can be judged best by the mettle shown by the yellow men seven or eight years ago and what we know the American soldier is.

"The instant war was declared," he continued, "every machinist, iron worker, steelworker, skilled and unskilled laborer from one end of the country to the other would start to work on war munitions, additions to the fleet and what not, the scope of which would stagger experts of the profession of war."

General Miles is not among those who believe that Japan will go to war with the United States.

"There is no earthly or sane reason," he said, "for Japan going to war with America."

Referring to the "jingoism" with a smile, he said, however, that one could never say what the future will bring forth. A warrior whose gallant achievements in the field of battle have filled many pages of the history books, Miles is yet a man of peace.

"Wars are not wanted or needed," he said. "But they are a weakness of the human race," he added, "and must come. I trust that I may never see a contest between this country and the Island Kingdom of the far East."

"But if it does come—in the event that Japan landed an army on the Pacific Coast," he was asked, "would they be able to remain?" Patriotic fire glowed in the eyes of the man of peace as he replied:

"The Japanese army and navy would find more than one Port Arthur—there would be five, six, seven or more, each defended by an army of capable men, splendidly officered, with six trunk lines carrying supplies and ammunition across the Rocky Mountains as fast as the best locomotives in the world could travel. The Pacific strongholds, such as San Francisco, Portland and other ports, would not be the task that Port Arthur was. Japan would be up against a different proposition entirely."

"How quickly could an army be mobilized for real war?" was asked.

"In three or four weeks the United States could place an army of 1,000,000 men in the field properly equipped and effectively officered with Generals commanding them that are by no means defective in the art of war," he answered. "The nucleus would be from the regular establishment—and this regular establishment is not the organization some would have the American people believe. It is amply prepared for the bloody, horrible, desolating contests that it was created for."

"A war between this country and Japan," he continued, "would resolve itself into a contest between a big nation with an inexhaustible supply of wealth and a small nation on the verge of bankruptcy. There could be but one end to it. Japan would be utterly annihilated if it continued long enough."

"If Japan should gain several successes in the sea, there would be a rapid rebuilding or addition to the

naval fleet. American energy and American blood are not shed for nothing. Japan would soon find herself locked up in her own little islands, with some of them possibly occupied. It is the height of absurdity to imagine for an instant that Japan or any other Power, for that matter, could capture part of our continent or insular possessions and retain them permanently."

YOUNG WIVES OF OLD
PREACHERS HANDICAPPED

Ocean City, N. J., March 17.—To discourage young women from marrying aged ministers with a view of receiving the benefits paid to the widows of preachers, the New Jersey conference of the Methodist Episcopal Church has passed a resolution providing that only in cases where the widow is not more than five years the junior of a deceased minister shall the full amount of the pension be paid. For every additional five years' disparity the amount is to be decreased in proportion.

MOUNTAIN FAMILY GIVES
FIERCE FIGHT TO OFFICERS

Who Invaded Their Home Pre-
cincts Hunting for Moon-
shine Still.

Whitesburg, Ky., March 18.—United States Deputy Marshall J. Martin Potter and a posse of men headed by Charlie Smith and Garfield Smallwood, of Pikeville, went into the mountains of Long Fork creek, near the Letcher county line, to arrest Charlie Tackett, aged twenty years, on a charge of moonshining.

Young Tackett, though armed, gave up without resistance, but almost instantly Martha Tackett, his aged mother, secured his pistol and began to rout the officers, followed by her daughters, Bettie and Nannie Tackett, aged 16 and 18, respectively.

Immediately after hostilities began, Officer Potter fled from the Tackett premises, but Smith and Smallwood stood their ground. In the first volley Smallwood lost a finger and his hat was shot off. Smith was shot through the arm by Bettie Tackett, who fought with a shotgun. He proved a target for the entire Tackett family and received three dangerous wounds. One shot in the left side tore that part of his body almost to shreds. He is not expected to recover.

TWO TRAMP PRINTERS
NOT AFRAID OF GHOSTS

Nyack, N. Y., March 18.—Two men, describing themselves as tramp printers, are under arrest here, charged by the police with having made their home for the greater part of the winter in a vault in the Rockland cemetery.

The men are said to have lived for nearly three months in the dark, damp room, measuring 10 by 12 feet.

Their improvised bed of straw and blankets was spread upon two coffins, and funeral urns afforded a storehouse for their food.

MAYOR OF NEW YORK READING HIS MORNING MAIL.

HERE he is, the only simon pure pedestrian mayor on the continent. Walk right up and take a look at him. His name is William J. Gaynor, and he inhabits during business hours the city hall of New York. He lives in Brooklyn, which before the consolidation into the greater city was called the bedroom of New York. Mayor Gaynor has an automobile, but he'd rather walk than auto. Every morning he walks from his home to the city hall, across the Brooklyn bridge, about four and a half miles, and every evening he walks home. Nowadays, since the crank Gallagher let a bullet go at him last summer, he is accompanied on these walks by two city detectives, who say they enjoy the walk.

JUDGE HENSON WILL
PRESIDE AT OWENSBORO

As Special Judge in Several
Cases in the Daviess Cir-
cuit Court.

Judge J. W. Henson, of Henderson, will arrive in Owensboro the middle of this week to preside in several cases in which Judge Birkhead is either interested or is otherwise disqualified.

On Saturday, Judge Birkhead received a letter from Judge Henson, stating that he was ready to come as soon as Governor Willson notified him to do so, and the fact that the services of a special judge would be needed was certified to the Governor by Circuit Clerk Tandy Harl late Saturday afternoon.

One of the matters to be disposed of is in the case of T. A. Pedley, receiver of the Owensboro Savings Bank and Trust company, in which the receiver filed a proposition from the Owensboro Banking company to purchase the Savings bank building and all fixtures for \$30,000 in cash. Judge Birkhead is a stockholder in the Owensboro Banking company, and for this reason he declined to pass on the question.

Before Judge Henson can consider the question, it will be necessary for an order to be entered setting aside a former order directing the receiver to sell the building and fixtures at public auction and at an upset price of \$35,000.

Other matters to be determined by Judge Henson are motions in the divorce case of Ollie Martin against Edward Martin, in which the wife of Judge Birkhead is related to one of the parties. The special judge will also try out the case of Annie B. Miller against Frank Jenkins, on account of Judge Birkhead being directly interested.

EARLY ANNOUNCEMENT
OF JUDGE WM. M. REED

Of Paducah, for Democratic Nom-
ination for Governor is
Expected.

Paducah, Ky., March 18.—When seen to-day regarding his reported candidacy for the Democratic nomination for Governor, Circuit Judge William M. Reed, of this city, was in conference with State Central Committeeman W. A. Berry, whom he authorized to speak for him. Committeeman Berry said:

"You may say that Judge Reed is thinking seriously of making the race and he will reach a decision in the next few days."

Judge Reed admitted that he had the race under consideration, but said he was not yet ready to make a statement. No more popular Democrat resides in Western Kentucky than Judge Reed, and he undoubtedly would carry the western section of the State solidly, say his friends.

From a good source it was learned that prominent Democrats all over the State are urging him to run, and have promised to stump the State for him.

Judge Reed has never taken a prominent part in politics. His friends believe he will announce early next week.

Penalty to Soon Go On.

The taxes recently levied by the City Council of Hartford, are now due and I am ready to collect same. The penalty goes on April 1st. Please do not neglect the matter, but get ready to pay now in order to avoid the penalty. SAM F. RILEY,

HE SUES FOR \$5,000 FOR
ALIENATION OF AFFECTIONS

A suit of unusual interest was filed in the Ohio Circuit Clerk's office Wednesday by W. D. Vance against George H. Roach. The plaintiff charges the defendant with alienating the affections of his wife by visiting her and persistently telling her, both in conversation and in love

letters, that plaintiff was unkind to her, and was mistreating her. And by these acts he finally succeeded in inducing her to leave him. This case will be watched with more than usual interest. The plaintiff is asking \$5,000 damages, and is represented by Attorneys Barnett & Smith.

AMERICAN MILLIONS
INVESTED IN MEXICO

Washington, March 20.—A total of \$875,708,925 in gold has been invested in twenty-one years by foreign interests in Mexico outside of the mining industry, according to a bulletin issued by the Bureau of Manufacturers of the Department of Commerce and Labor to-day.

Americans supplied \$338,001,973, while capitalists of the United Kingdom furnished \$254,650,823; Germany, \$26,246,382; France \$16,207,076; Austria-Hungary, \$403,200; Spain, \$2,386,687, and Italy, \$58,050. The figures are from 1886 to 1907.

Difficult to Maintain Neutrality
On Mexican Border, Says
Lexington Printer.

Lexington, Ky., March 18.—Geo. Zimmerman, a well-known printer, who worked for several years on the Lexington Leader, is a Major of the insurgents under Gen. Madero in Mexico, and a letter was received from him to-day by William Hongland, foreman of the Leader composing room, in which he declares that the insurrection will succeed within ninety days.

Mr. Zimmerman is a cousin of D. N. Zimmerman, assistant postmaster of Lexington, and left here about eight years ago for the Southwest. The last heard from him here until his letter to-day was about four years ago in New Orleans. His last letter is as follows:

Smelter, Texas, March 14, 1911. This will be mailed twelve hours after I recross the border with men and machine gun.

Friend Bill—La libertad es uno de los mas preciosos dones, ue los cielos dieron a los hombres. I was one of the three dynamite squads who escaped from Casas Grandes last Tuesday. Rest of Americans captured and killed. President Madero personally promoted me from Lieutenant to Major on Wednesday. Five times twenty thousand United States soldiers cannot maintain neutrality. I intend advocating raising of the black flag in retaliation of Diaz's proclamation. We will win inside of ninety days. Give regards to boys and tell them I will get them "jobs" if they will come down here. Your friend,

COAL MINERS OF OHIO
HAVE BEEN CALLED OUT

Bridgeport, O., March 18.—Nearly five thousand coal miners in Eastern Ohio were ordered to lay down their tools at 4 o'clock this afternoon in conformity with the strike order issued by President T. L. Lewis, of the United Mine Workers of America. The strike is called in sympathy with one which has been on in the Tuscarawas district of Ohio since April, 1910. President Lewis will take personal charge of the strike and the miners have a fund of \$500,000 which they say they will spend if it is necessary to win.

FOUND GUILTY ON CHARGE
OF MURDERING HER SON

JAPAN HATES UNITED STATES

And Japs Believe They Can
Crush This Nation.

WAR NOW APPEARS IMMINENT

Startling Statement by Well
Informed Man About Jap
Attitude Toward Us.

JAPS ANXIOUS FOR A SCRAP

Washington, March 18.—Most remarkable confirmation of the hostile attitude of Japan toward the United States came to-day from J. De Savornin Lohman, a citizen of Holland, who has arrived in Washington direct from the Japanese Empire. Following is Mr. Lohman's startling statement:

"Since my arrival in this country I have been surprised at the indifference of the American people toward the attitude of Japan. I mingled with all classes of people in the different cities of the Japanese Empire and everywhere I went it was the main topic of conversation that Japan hates America and Americans. They do not conceal this hatred. They are possessed of a supreme confidence that they can crush this nation."

"Japanese army officers and army officers of foreign nations stationed in Japan are of one opinion—that in a war with the United States, Japan would win. The Japanese have their eyes first on the Philippines, then on Guam, Samoa and Hawaii. Why? Because the Japanese are indignant because this country placed a ban on Japanese emigration."

"There is no doubt in the mind of any one who has recently visited Japan that the country is a beehive of industry in preparation for war. There is only one thought—that this war must be directed against the United States."

The gentleman who sounds this warning is not an alarmist. On the contrary he is a staid, conservative but observant Hollander, son, it is to be noted, of A. F. Lohman, who is a member of the International Arbitration Court. He comes here from Japan to visit the Holland Legation.

NOTICE TO SCHOOL BOYS
ABOUT RAISING CORN

The Commissioner of Agriculture has asked me to send him the names of fifty boys between the ages of ten and fifteen who will agree to raise one acre of corn. Mr. Rankin will issue a diploma to each boy who will raise sixty bushels of corn on an acre of ground.

Seed corn will be sent to each of the fifty boys entering the contest. To every boy between 10 and 15 who will raise sixty bushels of corn on an acre of ground, Mr. Rankin will issue a diploma.

I want the names of all boys who will enter this club at once. Send me your name, address, age and shipping office immediately.

If more than fifty should apply, fifty will be selected to represent all parts of the county as nearly as possible.

Later some arrangements will be made for prizes to the most successful ones. All boys should enter. The only difference is that the fifty will get free seed corn.

I will be glad to help you in any way possible. Any information, any assistance, will be cheerfully given.

APT REVIVAL OF YE OLDEN TIMES

Is War Demonstration
Near Mexico.

"AN ARMY OF OBSERVATION"

Was What Zachary Taylor
Started Out With—Re-
sults Different.

HAPPENINGS OF 65 YEARS AGO

The sensational movement of troops and cruisers in the direction of Mexico proceeds with some celerity. If proof were needed that a war demonstration costing nearly \$300,000,000 a year could make a demonstration in the Southwest more expeditiously than, for example, the United States forces did in 1846-47, the experiment must be regarded as highly satisfactory.

Sixty-five years ago Zachary Taylor was on the Texas border with a command of 3,200 regulars. It was called "an army of observation." The present exhibition of militarism is officially described as a "maneuver." Taylor's observations were so intimate that in the course of time he came into conflict with the Mexicans, and thus began a war, the motives of which, whatever their advantages to civilization, have had few defenders.

In that case, as in this, the people were kept in ignorance or misinformed as to the nature of the proceedings. There were no railroads or telegraphs in the far West. Mexico itself then, as now, was a sealed book. Nobody on either side of the line knew exactly what was going on, but suspicion in this country rested upon the slave power, which was as aggressive as the money power and the jingoes appear to be at this moment.

Considering the difficulties of transportation and communication, the Americans made what was for them a record after Taylor's first bloodshed. They marched, drifted down rivers and sailed on the gulf thousands of miles to the enemy's country, and, in about a year, had two important armies on the ground. Scott received orders in November, 1846, to proceed with all haste to Vera Cruz. He landed in March, 1847, and began his victorious progress toward the capital. Probably we could repeat the achievement now in a fortnight.

While these operations were under way, columns led by Kearney, Doniphan and Fremont were moving into New Mexico and California to reap the long-contemplated harvest. Kearney was six weeks on the march from Ft. Leavenworth to Santa Fe, and Doniphan and Fremont were months in reaching the coast, occupying territory which was never to be surrendered.

Few wars begin in obedience to popular will, and fewer still end in accordance with the program. Practically the only thing that the American people know about foreign war is that armies of "observation" and armies engaged in "maneuvers" in disturbed regions are likely to come into collision with other forces similarly disposed. War is almost always "declared" long after it exists.

The war game is conducted with edged tools. It is a costly game. It is a game that two can play, and it never is settled by those by whom it

KENTUCKY LEADS IN TOBACCO PRODUCTION

Washington, March 18.—In a current issue of the Government Crop Reporter, Kentucky is shown to lead the United States in tobacco production for the years 1906-1910, inclusive. The greatest production was registered in 1910 and the least in 1908. The list follows:

Year.	Production in pounds.	Percent Total U. S. Production.
1906	252,300	37.0
1907	240,478	34.4
1908	195,600	27.2
1909	350,700	36.9
1910	381,024	38.7

The States next in production to Kentucky in the order named are North Carolina, Virginia, Ohio and Tennessee.

A comparative table of the wages of farmhands, also published in the crop reporter, shows that Kentucky at \$1.71 a day pays the second highest harvest hand wages in the South Central States, only Oklahoma, with \$1.97 a day, ranking her. At monthly rates, \$23.10, without board, Kentucky pays her farmhands the fourth highest wages in the South Central States, the highest being Oklahoma with \$28.10.

NEW SET OF BEATITUDES THAT STRIKE THE MASSES

Rev. Henry Macy, pastor of the Congregational Church here, has written a new set of Beatitudes in an attempt to check late arrivals at church. This is the list which he to-day circulated among his parishioners:

Blessed are those who rise early Sunday morning, for they get to church on time.

Blessed are those who get to church on time, for they arrive in the spirit of worship.

Blessed are those who are never late, for they cause the minister and choir to love them.

Blessed are those who must be late who do not enter during the Scripture lesson and prayer.

Blessed are those who come even at the eleventh hour, but church begins at quarter before eleven.

The pastor and congregation are interested in the effect the Beatitudes will have an attendance hereafter.—(Newington (Conn.) Cor. New York Times.

HEAVY LOSSES AT THE BOWLING GREEN FIRE

Bowling Green, Ky., March 15.—The most disastrous fire of recent years destroyed \$60,000 worth of property here early this morning, about one-third covered by insurance. This included twenty-seven head of horses in the livery barn of McGinnis Brothers, where the fire originated.

The houses burned were the McGinnis stable, with all contents; the Neale building and contents occupied by the Posey Grocery Company, the Century Auto & Carriage Co. and by Company A of the State Guard, an armory. Five thousand dollars' worth of equipment from the Government was also destroyed without insurance.

The cupola of the court house was burned off. The total destruction of that historic old edifice was imminent, and only by the strenuous efforts of the department and citizens was it saved. The loss on this, however, will be several thousand dollars.

The Cork apartment house, housing nearly a hundred students, caught fire several times.

There was danger of a water famine at one time, but this has been averted, and the pumps have been running at full speed all day to fill the reservoir.

Medicines that aid nature are always most successful. Chamberlain's Cough Remedy acts on this plan. It loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by all dealers.

Combs Brothers Follow Jesse
Grant to Richland—Re-
sult Is a Duel.

FLYING BULLETS DO DAMAGE

Richland, Ind., March 16.—In a three-cornered pistol duel here at 8 o'clock last night, Raymond Combs was fatally injured by a bullet wound in the stomach and Jesse Grant was shot through the jaw. Gaston Combs, the other participant, made his escape. Deputy Sheriff Isaac Kramer is searching for him.

The trouble was the result of an old family feud which began in Ohio county over in Kentucky. The Combs families and Grant families were friends until the members happened to fall out over some trivial matter. The feud continued unabated until it looked as if bloodshed was imminent.

Jesse Grant decided to leave his home. Two weeks ago he came to this city, expecting to get away from trouble. The Combs brothers soon learned of Grant's departure and started in pursuit of him. They discovered that he had removed to this town and about a week ago came to Richland, where they have been ever since.

Grant, up to yesterday, has been able to dodge them, but the three men met early last afternoon in front of the Blue Goose soft drink stand. Grant slipped away before any trouble occurred. The Combs had been about town all day and it is claimed were under the influence of liquor.

Last night at 8 o'clock Grant was at the traction station when the two Combs boys came up. Raymond Combs, after addressing Grant, reached for his pistol. Gaston Combs was at the side of the two. Grant saw the move but was too fast for Raymond Combs, and drawing his gun, fired one shot. Gaston Combs pulled a revolver and fired at Grant.

Raymond Combs was fatally injured, as the bullet pierced his intestines. A physician was summoned from Eureka, but Combs is not expected to live. Grant was shot in the jaw. The bullet came out his mouth. The injury is only a slight one and he is expected to recover. Gaston Combs is still at large.

SOMETHING TENDING TO MAKE SOCIALISTS

Such things as this, tend to make Socialists and account, in part, for the dissatisfaction existing among the working class, who have to work to eat.

"Palm Beach, March 2.—Mrs. Vada Van Valkenburg, who inherited \$10,000,000 from her first husband, William H. Chapman, has lost her diamond-studded tennis racket. The gem weighs five karats. She is urging all her friends to aid her

in searching for the jewel, which, she says, she values chiefly because it was a gift from a friend in New York.

"After playing several sets, Mrs. Van Valkenburg went to the beach, where she chatted with several groups of acquaintances. She did not miss the racket until her return to her hotel. A large reward for the return of the racket is offered through a notice in the local newspaper."

Putting diamonds in a tennis racket is simply ostentatious display of wealth. A tennis racket costing \$5 is just about as good a racket, for playing tennis, as one could buy if one had all the wealth of Rockefeller to invest in a racket. Studding the racket with diamonds adds nothing to its value for the purpose for which it was first designed. A diamond on a tennis racket is as useless as a diamond set in a back tooth.

SUTHERLAND'S EAGLE EYE SALVE

STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Almost every community at times needs a Society for the Prevention of Cruelty to Animals.

These are the days when the fruit crop prophet gets in his prognostications with "telling" effect.

Lack of a platform four years ago cost the Democrats of Kentucky the election of that year. Must we risk the same thing again?

Maybe, some of these days, we will get the census returns of last year, especially those of Kentucky's various towns—including Hartford.

Lines seem to be rapidly shaping up which will make it a "wet" or "dry" race for the Republican gubernatorial nomination in Kentucky.

They will soon have an excellent brand of electricity on tap down at the Eddyville penitentiary, but you will have to go through all the red-tape of the courts before being permitted to use it.

The boy emperor of China is convalescing from an illness caused by an over-indulgence in swallow's nests, a national delicacy. Probably got some small sticks or other rubbish lodged in his throat.

A Democratic State Convention, specifically for the enunciation of party principles, is the great crying need of the party in Kentucky at present. There is no reason at all why such an assemblage should not be held.

Senator Wm. O. Bradley dived into his vest pocket the other day for a match to light his cigar and bystanders thought he would bring out with it the frazzled remnant of his party in Kentucky, but he didn't. It is still there.

The Republicans of Kentucky are getting into a far worse scrap over their gubernatorial nomination than the Democrats have yet attained to in party matters. When the g. o. p. leaders come together in brotherly fights, the result is always something fierce.

Evidently some of the Hopkinsville people were seeing ghosts one night in December several years ago when they imagined they saw a band of alleged night riders, headed by Dr. Amos, ride into, pillage and burn a section of the town. Judging from some of the evidence and the prevalence of alibis, the affair was mostly a myth.

"Louise," writing in the Breckenridge News, says "dish-washing makes the hands soft and smooth," and adds that she has been trying the remedy five days out of the week for quite awhile. Pity that many other sensible young ladies do not emulate the example of this charming girl of the Kentucky press, who wields the pen much better than she possibly could a dish rag.

And Mr. E. T. Franks, of Owensboro, responding to the deep solicitude of a million or two friends, more or less, has at last consented to allow his name to be used as a candidate for the Republican nomination for Governor. "Broncho Ed" was the first tamer to tackle the menagerie of Republican cohorts that usually assemble in the political arena at stated periods to tear and rend each other for the pitiful honor of being sacrificed to Democratic hosts in Kentucky.

Before Mr. E. T. Franks' political career hardly had time to curl itself around the ring to a settling point, came the announcement of Lieut. Gov. Cox also for the Republican nomination for Governor of Kentucky. Mr. Cox promises that the millennium will almost come to pass if he should be nominated and elected Governor. However, he says "I will leave the decision to the people," and the latter will no doubt take his promises for about what they are supposed to be worth, in deciding this suffrage matter.

The old saying, "Just anything to fill up the paper," has lost its meaning in these modern times—at least with such papers as The Herald. It is not now a question of what we shall get to fill up, but rather of how we shall find room for what ought to be printed as a matter of general information. It is more a question of condensation than of supply in newspaper offices nowadays—as much as possible of all that happens, with a sifting of various items to make the whole worthy of perusal by anybody. But everything worth reading is welcome, for the matter of "fill up" is based on just this sort of supply.

In the Republican scrap in Kentucky for the gubernatorial nomination, it seems to be all ends against the middle in the grand frame-up to beat Hon. Edward C. O'Rear. The recent announcements of two prominent Republicans for gubernatorial honors and the anticipated entry of several others from different parts of the State, only adds zest to the general stampede against the aspirations of Kentucky's superior court Judge along this line. It is said the federal machine headed by Senator Bradley, the State machine headed by Gov. Willson, and the whiskey and beer interests are all against him.

The Hartford Republican says: Of course it looks strange to the Hartford Herald that a little paper like ours would dare oppose the policy of a President of its party or any of its great leaders. No, nothing particularly strange about that. In fact, its readers are hardly ever surprised at anything the Republican says or does. Some few, however, are curious enough to wonder how the Hartford organ, which claims to be a Republican paper, is going to get in line for the support of William Howard Taft, who is certain to be its nominee for President next year.

WHO'D HAVE THOUGHT WE'D GET 'EM SO SOON?

How impossible it is to read the future! Who would have prophesied January 1st, 1911, that by July 1st, 1911, an income tax amendment would have been submitted by a Republican President, Senate and House, and ratified by a majority of States? Who would have predicted that by that time an amendment would have been submitted for the election of United States Senators by popular vote? Who expected tariff reduction so soon? And yet the special session Democrats wanted but could not compel is here and brought by the "old guard!"

Now Democracy has its chance. Let it improve it; let it meet the responsibilities of the hour.

First—Let it ratify the reciprocity agreement—the failure to ratify which brought the special session.

Second—Let it admit Arizona and New Mexico.

Third—Let it submit a constitutional amendment providing for election of United States Senators by direct vote.

Fourth—Let it reduce the tariff, schedule by schedule, and either relieve the people or present an issue for the President and his party to meet.

Cannibalism has already been overthrown and there are other reforms that need attention, but the ones mentioned come first. Now for business.—[Bryan's Commoner.]

O'REAR AND BREATHITT MAY ENTER ANY TIME

Frankfort, Ky., March 20.—While Judge O'Rear is noncommittal as to his intentions with respect to the gubernatorial race, his friends here believe he will shortly announce for the Republican nomination. Here it is taken for granted he will run.

There is also some talk of Attorney General James Breathitt seeking the nomination, and it would not be surprising if he, too, shield his castor in the ring.

NEW YORK CHURCH-GOERS SLEPT LATE LAST SUNDAY

New York, March 20.—There were 530,000 members of Christian churches on Manhattan Island who did not attend worship yesterday morning. Of these 285,000 were men. Of the absentees 405,000 were Roman Catholics and 77,000 Protestants. The Catholic churches claim 650,000 members and the Protestant churches 151,000.

This is the result of a "census" of church attendance undertaken in every church in New York City yesterday by the New York Church Association, a religious organization which gathers statistics of all kinds regarding the churches of the city. The "census takers" counted the attendance in total and also of men.

REBELS TO MAKE TERMS OF PEACE

So Their Leaders Steadfastly Declare.

REFORMS MUST BE ENFORCED

Insurgents Will Not Abandon Arms Until All Demands Are Strictly Met.

DEMANDS OF REBELS OUTLINED

El Paso, Tex., March 18.—Before any proposals for a termination of the Mexican insurrection will be entered into by the insurgents here, Diaz must agree to declare null his election of 1910 and must agree to submit to a new election under the terms for a free ballot allowed by the Constitution of 1857. He must agree to grant all the political reforms demanded. The insurgents must not be required to surrender their arms until peace is assured.

This is the reply of Senor Gonzales Garza, the insurrecto Secretary of State, to the statement from New York that Senor Limantour, the Mexican Minister of Finance, had formulated tentative plans for ending the insurrection, and in effect it is the reply of Francisco I. Madero, the revolutionary leader, who is now fighting in the field.

Senor Garza has been in communication with Madero, and has acquainted Madero with whatever negotiations have been carried on in Washington and New York looking to a settlement. Francisco Madero is looked upon as the revolutionary President and as representing the will of the insurrectos, and no peace plans will be entered into until he has given his consent and fully gone over the details, Senor Garza said.

Outlines Demands. Senor Garza, who acts here in conjunction with Braulio Harnandez, insurrecto Secretary of State of Chihuahua, has outlined the demands of Madero, which he said were as follows:

"Abolition of the election of the President.

"Election of Governors in a State instead of by Federal appointment.

"Curtailment of the powers of the Jefe Policico or Mayors of cities and provision for their selection by popular vote instead of by appointment by the Governors of State.

"Reform of the land laws so that plantations, now as extensive as from 1,000,000 to 10,000,000 acres, may be divided or distributed, or sold in small lots to the people.

"Free ballots in all elections and preservation of individual rights under the Constitution.

"Extension of the school system."

Senor Garza suggested that Chihuahua City probably would be the point at which negotiations would be conducted. His assertion that "the relative positions must remain unchanged" was taken to indicate the insurrectos would not consent to the resumption of telegraph service and the repairing of railroads in the Chihuahua and Sonora States during the proceedings.

SAME OLD BLACK BEAR ON THE RAMPAGE AGAIN

Glasgow, Ky., March 18.—A report here to-day states that a large black bear had been seen this week near Glens Fork, and that the inhabitants of that section are greatly excited over the discovery and are afraid to let their children go to school without an escort. The bear was first seen by a party of boys who were hunting in that section, the animal attacking the dogs and injuring them severely and putting the hunters to flight.

The bear is believed to be one of the family of black bears that live in the mountains along Cumber-

land river on the Kentucky-Tennessee line. It will be remembered that a bear stayed all night at a farmhouse in that section some time ago, sleeping in an upstairs room and tearing the beds almost to pieces, leaving at an early hour next morning, without being captured.

DIVORCE SEEKERS CAN NOW ROOM AT WILL

Reno, Nev., March 18.—The popularity of the State of Nevada as a place to secure quick action in divorce cases has been increased. The Legislature let the bars down further than they have been when both Houses passed a bill making a residence of six months the only requirement in divorce actions. The privilege of leaving the State "when necessary" is to be accorded to all who are establishing a residence. The bill now goes to the Governor.

E. T. FRANKS OUT FOR REPUBLICAN NOMINATION

For Governor—Was First of His Party in the Field for This Office.

Formal announcement that he seeks the Republican nomination for Governor was made by former Collector E. T. Franks, of Owensboro, last week. In making the announcement Mr. Franks stated that he had reached the decision to enter the race only after careful consideration and following many conferences with his political friends and advisers, the last of which was held at Owensboro Wednesday.

He stated that during the past few weeks he had received letters from no less than 300 of the most influential Republican leaders from every section of Kentucky, asking him to make the race. He said that in view of the pressure that had been brought to bear on him he felt that it was due to his many friends throughout the State that he make the race.

Mr. Franks was the first aspirant for the Republican nomination for Governor to officially announce his candidacy, but he was followed in a day or two by Lieut. Gov. William Cox.

In outlining his policies Mr. Franks stated that he is in favor of the Republican party adopting a platform advocating better educational facilities, plans for better roads throughout the State, liberal legislation to secure just and equitable taxation laws, just apportionment laws, nonpartisan control of the penal and charitable institutions of the State, nonpartisan banking laws and methods for better development of the natural resources of Kentucky.

Mr. Franks is one of the best-known Republican politicians in Western Kentucky, having been for twelve years Collector of Internal Revenue for the Second district. He was first appointed to this office by President McKinley, and was twice named by President Roosevelt for the same position. In 1909 he was succeeded by Lawson Reno. In June, 1909, he was elected president of the United States National Bank at Owensboro, one of the biggest financial institutions in Western Kentucky.

SAVING NO.

The author of "Pat McCarty," a recent book of verse with a setting of prose, shows how naturally some of the Irishmen of Antrim dilute the wine of narrative with the water of verbiage. In the excerpt below—"The Wav We Tell a Story"—the dilutant is used with a particularly free hand:

Says I to him, I says, says I,
Says I to him, I says,
The thing, says I, I says to him,
Is just, says I, this ways.
I hev, says I, a great respect
For you and for your breed,
And anything I cud I says,
I'd do it, I wud indeed.
I don't know any man, I says,
I'd do it for, says I,
As fast, I says, as for yourself,
That's tellin' ye no lie.
There's nought, says I, I wudn't do
To please your feyther's son,
But this, I says, ye see, says I,
I says, it can't be done.

Hez Carter was arrested last Thursday charged with selling liquor without license in Hartford. He was tried before a jury in the Hartford Police Court Friday morning and fined \$100 with work clause attached. So another "bootlegger" will have to do duty on the streets of Hartford 100 days.

In a high school oratorical contest at Marion, Ky., recently, young Allen Foster, son of Mr. Joe Foster, a former resident of Ohio county, won the Cochran Gold Medal which is given each year to the most proficient speaker. His subject was "The Decadence of Patriotism," and he undoubtedly handled his subject well.

Deputy United States Marshal C. T. Nichols, of Owensboro, spent several days in Hartford last week on a still hunt for "bootleggers" and after some few maneuvers, rounded up Hez Carter and Dan Taylor, colored, whom he took to Owensboro Monday. He also summoned several white citizens in the persons of Messrs. Dan and John King, Lewis Riley and Richard Carpenter, to be used as witnesses in the alleged illicit sale of liquor here.

While riding in a buggy a few miles north of Hartford last Saturday, Deputy U. S. Marshal C. T. Nichols, of Owensboro, who was out on an errand pertaining to his business, espied a ground hog on the roadside. Asking the driver to slow up, Mr. Nichols quickly sighted the animal with his pistol and killed it with a shot squarely through its head. It was brought to Hartford and was the first ground hog some people here had ever seen.

Little Z. Wayne, Jr., son of Mr. and Mrs. Z. Wayne Griffin, while playing in their home on Union street Monday shortly after noon, was badly hurt by pulling a large music box over onto himself. A long gash was cut in his lower lip and his face was otherwise bruised. Physicians were summoned who put the little fellow under the influence of chloroform and sewed up the wound. He is getting along all right now, but it will necessarily take some time for the wound to heal.

There were 251 business failures in the United States during the week ending March 16, against 230 the previous week.

BAPTIST CHURCH.

Mr. Louis Intzminger spent a few days with the Sunday School workers last week. He is very enthusiastic and believes in doing the work as well as talking about it. The town was canvassed, the Sunday School thoroughly graded and much interest awakened.

Prayer services Wednesday evening at 7:30 o'clock conducted by Sidney Williams. Theme for study, "Deception." Scripture Gen. 27:1-29. Teachers' meeting in Baraca room at the church Thursday evening at 7:30 o'clock.

Prof. Fielden, who is conducting the singing school, will meet his class Friday evening at 7:30 o'clock, Saturday evening at same hour and Sunday afternoon at 2:30 o'clock.

Next Sunday is the annual "Mission" day in the Sunday School. Program printed below.

Morning worship at 11 o'clock. Preaching by the pastor.

At the evening hour, a special program will be rendered by the "Teachers' Training Class" and twenty officers and teachers will receive their diplomas for that work. This work has been carried on in the Baptist Sunday school now for three years, a class completing the work each year, but this is by far the largest class that has ever taken the work in one year. Most all the officers and teachers in the Sunday School will now hold the "King's Teacher" diploma.

Pastor Bruner will preach at the schoolhouse for the Concord people Saturday at 11 o'clock and Sunday afternoon at 2:30 o'clock.

Program for "Missionary Day" in Baptist Sunday School, March 26, 1911, is as follows:

9:45--Song, "Rescue the Perishing" by school. 9:50--Prayer. 9:55--Sunday School and Missions--Dr. E. W. Ford. 10:00--Song, "The Morning Light is Breaking," by school. 10:05--Recitation, "A Little Missionary of Long Ago"--Mary Barnard. 10:10--Lesson Period. 10:30--Song. 10:35--Recitation, "Gifts for the Kingdom"--Henry D. McHenry. 10:40--Missions--Rev. J. W. Bruner. 10:50--Quartet No. 1, Wm. Fair, E. G. Schroeter, E. W. Ford, Carlisle Render. 10:55 Prayer.

Mrs. Sallie Thomasson Dead.

After having lain at the point of death for three weeks, Mrs. Sallie Thomasson, one of the best known women of Daviess county, passed away Monday morning at 1:30 o'clock of tuberculosis after an illness lasting for many months.

For several years she had been one of the most highly respected residents of the Utica vicinity, being the widow of the late Zack Thomasson, and a large land owner. She had been a prominent member of the Oak Grove Baptist Church for years, and was a very charitable woman. She was sixty years of age, and is survived by four children, who are: Miss Nettie Thomasson, and Mr. William Thomasson, of Utica, and Mrs. Harry Talbott, of Utica, and Mrs. Jack Hudson, of Buford.

The funeral was conducted from

the Oak Grove Baptist Church yesterday afternoon at 1:30 o'clock, with services by Rev. O. M. Shultz. The pall-bearers were: Messrs. J. G. Howard, P. H. Haley, J. F. Leat, S. J. Owen, J. W. Allen and Dr. W. E. Holmes. Interment was made in the church cemetery.--[Owensboro Messenger.

CHAMP'S ADVICE IS "GO SOUTH"

Coming Speaker of House is a Booster

FOR WONDERS OF DIXIELAND

He Hopes to Get a Few Tariff Schedules Over the President's Head.

IS WILLING TO BE PRESIDENT

Chicago, March 17.—Congressman Champ Clark, of Missouri, the coming Speaker of the National House of Representatives, today amended the famous saying of Horace Greeley: "Go West, young man; go West!" and made it "Go South, my boy; go South!"

The Missouri Congressman headed off newspaper men who sought to ask him questions pertaining to other matters and insisted that they first "learn something about the Southland from some one who knows and wants every one else to know."

Supplementing his comment, Mr. Clark said:

"The South is the place, and my advice is to go there. You won't eat as much as you do here in the North. If you do, you'll die. Your clothing must be lighter, and, therefore, less expensive. You won't have to buy fuel to speak of, and you can allow your horses and cattle to graze out of doors the year around."

"Believe me, the South is the poor man's land, and you'll live to see the day when the South is going to be the richest part of the United States."

"Why, say, I know a man who made \$1,500 in one year off three acres of lettuce. Sounds fishy, doesn't it? True, though, for I took the pains to find out. It's a great country, boys, and if you want a tip, follow my advice. That is, go early to the Southland and grow up with its progress."

If any one doubts that Congressman Clark would make a good Democratic candidate for President at the next election, they have his word for it, given to-day. He "admitted" he would make a good candidate, saying: "Well, the Democratic party might go farther and fare worse—and I think it will."

The next Speaker of the National House discussed any and all other subjects put to him except the Lorrimer vote and woman's suffrage, of the latter of which he said:

"I know when to let well enough alone, and I'm going to keep still." He prophesied victory for the reciprocity measure, and said of the tariff: "We can get by Mr. Taft with a few schedules, we hope, where we never could get past with a whole bill."

Mr. Clark intimated that if Republicans in the next House didn't like committee appointments they could go hang for all the good it would do them. Only he said it in this way:

"Those who don't like the appointments can take advantage of the great American privilege of cussin'."

Congressman Clark lectured to-night at a local church. He insists on calling it a lecture, saying: "A speech is where you talk for nothing; you get paid for a lecture."

PLATINUM \$43 AN OUNCE—MORE COSTLY THAN GOLD

Platinum, which is far more costly than gold, has been advancing rapidly in price in the last few weeks. Yesterday it was quoted in Maiden Lane at \$43 an ounce for hard platinum and \$41 an ounce for the soft metal. These are the high-

est prices ever reached, and indicate an advance of about \$10 an ounce in the last six months.

The present upward movement in platinum was nearly equalled several years ago. In 1905 pure platinum was selling at \$18.50, with only a languid demand. Early in 1906 the sales began to increase, and prices steadily advanced until in December of that year pure platinum was selling at \$38 an ounce and hard platinum touched \$40. That was the highest level it reached. A decline started in February of 1907 and continued until August of 1908, when the price had again declined to less than \$20 an ounce. The present upward movement started soon afterward, but was not brisk until within the past six months.

The production of platinum in this country is small, for all that is obtained comes as a by-product in working the gold placers of California and Oregon.

The chief source of supply is the Ural Mountains, in Russia, but some is also obtained from Colombia, South America and from Canada.—[New York Times.]

HOME.

I know that Appollo swept such harmony from the lyre that the listening gods were charmed and the world acclaimed him deity of song. I know that Orpheus with magic strain led rocks and trees and beasts to follow him and so enthralled the underworld that angels gazed thereon with envy. I know that Timotheus with wondrous melody subdued the riotous Alexander, awoke within his haughty soul emotions high as heaven and instincts low as hell and with a skillful change of chord, displaced upon the monarch's lips a sigh of pity with a curse of hate. I know that David drew from his entrancing harp a concord that dispelled the gloom about the brow of Saul and flooded Israel's palaces with the laughter of music and the joy of song. I know that when Cecilia sang, angels were fascinated and men enraptured. I know that Eleanor's troubadours at Antioch bewitched the Syrian air with the ballads of the South and lightened the horrors of the Second Crusade. I know that Palestrina, Handel, Mozart, Beethoven and the rest have vastly elevated man with symphonies sublime. But I know that all of these, combined by a master greater than those who as yet have lived, into one gorgeous rhapsody, can equal not the touching cadence and the simple majesty of "Home, Sweet Home." (Prolonged applause.)—[Hon. Morris Sheppard, of Texas, in the Congressional Record.]

THE WISE PREDICTION OF ADMIRAL NOAH

Representative Clark, of Florida, is of the opinion that his colleague, Richmond Pearson Hobson, the hero of the Merrimac, will prove a second Noah. Mr. Clark made a short speech on the floor recently defending Representative Hobson and his war prediction. The following is what Mr. Clark thinks of the predicting qualities of Mr. Hobson:

"Admiral Hobson predicts war. My friend from Missouri, Mr. Bartholdt, and others belittle the prediction. Let them beware. Admiral Noah some years ago made a prediction in reference to certain things, and I want to call the attention of the House to some lines in reference to that prediction:

"Dar's gwine to be a' overflow," said Noah, lookin' solemn—
Fur Noah tuk the Herald an' he read de ribber column—
An' so he set his hands to wuk a'clarin' timber patches,
An' lowed he's gwine to build a boat to beat the steamah Natchez.

Ol' Noah kep' a-sallin' an' a-chippin' an' a-sawin',
An' all de wicked neighbors kep' a-laughin' an' a-pshawin';
But Noah didn't min' 'em, knowin' whut was gwine to happen,
An' forty days an' forty nights de rain it kep' a-drappin'.

MADE A DEED OF HIS LAND TO GOD

Strange Bequest of Massachusetts Man.

AN ODD INSTRUMENT DEVISED

By Richard George in Which the Almighty is Made Beneficiary.

FIRST THING OF KIND KNOWN

A unique instrument was filed a few days ago with the Taunton Registrar of deeds by Richard A. George, of North Attleboro, Mass., in which a tract of land in New Boston, a suburb of North Attleboro, was conveyed to the Lord of Hosts.

So far as known it was the first instrument filed in New England making such a conveyance.

In the deed the Lord is named as the grantee and the representatives of the Lord in the transaction were Charles Carpenter, E. S. Barstow and A. H. Jamison, all of North Attleboro, who are described in the paper as being trustees of the Christian Workers' Union. The grantor was Richard A. George.

The deed is couched in the ordinary legal expression, and declares that "Richard A. George, of North Attleboro, in consideration of \$1 and other valuable considerations sold by the Lord, represented by Charles Carpenter, E. S. Barstow and A. H. Jamison, trustees of the Christian Workers' Union of North Attleboro, the receipt of which is hereby acknowledged, do hereby give, grant, bargain, &c., unto the said Lord and representatives, a certain lot of land situated in North Attleboro, on the easterly side of the road known as the New Boston road." Then follows in the deed a more particular description of the property.

The land was purchased in 1904 by the Christian Workers' Union of North Attleboro, but the instrument setting forth the transfer was not presented to be recorded until the past week.

It is supposed that the matter of tax assessments will have to be borne by the Trustees of the Christian Workers' Union unless some special exemption from taxation is secured. This will be determined later.

New Boston is a small village some three miles from North Attleboro, on the road to Foxboro. A number of years ago some of the villagers formed a religious society, and meetings have since been held by the 25 or 30 members. The body took the name of the Christian Workers' Union.

In 1904 the society decided to erect a small structure as a place of worship. The land was purchased of Richard A. George, one of the members, and he deeded the property to the Creator, naming as temporary custodians the Trustees of the union.—[Boston Globe.]

Attacks School Principal.

A severe attack on school principal Chas. B. Allen, of Sylvania, Ga., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, biliousness, and for new health and vigor. Try them. Only 50c at James H. Williams.

What Ruined Rome.

What ruined Rome was not the barbarian invasion, but (1) a declining birth rate and the dissolution of the marriage tie; (2) overwhelming taxation, especially on the land; (3) the introduction of a caste system through Government action; (4) the attempt of the State to act as a universal providence; (5) the endowment of idleness; (6) the neglect of national defense by the refusal to train the population to arms and by reliance solely on a professional army.—[The Spectator.]

MAINTENANCE OF WAR COSTS AN IMMENSE SUM

Crime and self-destruction have increased fourfold in Japan since her contest with Russia. There were 11,000 acts of suicide, mostly harakiri, last year. The taxes and industrial depression are blamed. Norman Angell calculates the Franco-Prussian war has cost Germany

\$400,000,000 more than she got in indemnities from conquered France. For instance, he says \$150,000,000 was spent by Germany in increasing her peace army to 530,000 men; \$400,000,000 in wages were lost by the Germans killed and wounded. The permanent German war force was enlarged by 100,000 men, and has been maintained for 40 years, at a total cost of \$1,000,000,000. Then there was the loss of German trade and German foreign markets.—[New York Press.]

ONE BOY SLEW ANOTHER WITH HIS BARE FIST

Princeton, Ind., March 16.—At East Mt. Carmel, near here, Dewey Hewitt, aged sixteen years, is dead as the result of a blow in the stomach delivered by the fist of Albert Glouser, aged seventeen. The boys were close friends and were playfully scuffling, when Glouser struck Hewitt in the stomach harder than he intended. The injured boy fell in a spasm and died in a few minutes. The Glouser boy is almost wild with grief. He was exonerated by a Coroner's jury.

HOME REMEDIES.

The following remedies are all vouched for by those who have used them:

For asthma, take one ounce of iodide of potassium and dissolve it in one pint each of Holland gin and clear water. Dose is one teaspoonful after each meal.

For an eating ulcer, use air-slacked lime, pulverized and sifted through muslin to remove all grits; this will not pain, and is claimed to be one of the best remedies known for old, eating sores.

For a cold on the chest (grip), wring a flannel cloth out of hot water, fold and sprinkle a few drops of turpentine on it, and apply to the chest and throat as hot as can be borne. It is sure to relieve.

For bronchial troubles and sore throat, take equal parts of olive oil, turpentine, spirits of camphor and coal oil; put into a bottle and shake well each time before using. Rub on the chest and throat as any liniment, then wring a flannel cloth out of hot water, double, and apply as hot as can be borne to the chest and throat; repeat as often as the flannel cools until relieved.

For ulcers and old sores, take one pint of water, boiling; put into it two tablespoonfuls of refined borax; shake well. Use absorbent cotton, three thicknesses. Dip into the borax water and apply as hot as can be borne, every half hour while awake, for one week; then, four times a day after the first week. The water must be as hot as can be borne, and fresh cotton used each time, burning the old cotton. The borax is cleansing and healing, and the hot water is also.

THE LADIES' AID SOCIETY.

We've put a fine addition to the good old church at home; It's just the latest kilter with a gallery and dome. It seats a thousand people—finest church in all the town! And when 'twas dedicated, why we planked ten thousand down! That is, we paid five thousand—every deacon did his best— And the Ladies' Aid Society, it promised all the rest.

We've got an organ in the church—very finest in the land; It's got a thousand pipes or more; its melody is grand! And when we sit on cushioned pews and hear the master play, It carries us to realms of bliss, unnumbered miles away. It cost a cool three thousand, and it's stood the hardest test; We'll pay a thousand on it—the Ladies' Aid the rest.

They'll give a hundred sociables, cantatas, too, and teas. They'll bake a thousand angel cakes and tons of cream they'll freeze. They'll beg and scrape and toil and work for seven years or more. And then they'll start all o'er again for a carpet for the floor. No, it isn't just like digging out the money from your vest, When the Ladies' Aid gets busy and says, "We'll pay the rest."

Of course we're proud of our big church from pulpit up to spire; It is the darling of our eyes, the crown of our desire! But when I see the sisters work to raise the cash that lacks I sometimes feel the church is built on women's tired backs. I sometimes can't help thinking, when we reach the regions blest, The men will get the toll and work and the Ladies' Aid the rest.

—[MARGARET BROOKS.]

SPECIAL NOTICE

in regard to OBITUARIES, RESOLUTIONS OF RESPECT, &c.

The Hartford Herald has adopted a new rule in regard to Obituaries, Resolutions of Respect, Cards of Thanks, &c., whether written at the behest of lodges, churches or individuals, and that is, we shall charge at the rate of two cents per line for all such articles, except obituary poetry, which will be one cent per word, straight. This is the smallest rate we charge for anything and is only one-fifth of our regular rate. The amount, in cash or stamps, must accompany each article, or it will not be printed. Six words average a line in ordinary reading and every separate character or initial letter counts as a word. The heading and the signature both count one line each, even if they are only a word or two. All obituary poetry, straight through, one cent per word.

Our old rule in regard to Obituaries, &c. was 150 words free, balance a cent a word, but this did not prove satisfactory because the bounds were almost always overstepped, and we have been forced to adopt this new rule, which is in effect from now on. Contributors will please remember.

A Pierce Night Alarm

Is the hoarse, startling cough of a child, suddenly attacked by cough. Often it aroused Lewis Chamblin, of Manchester, O. R. R. No. 2, for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, hay fever, la grippe, whooping cough, hemorrhages, fly before it. 50c and \$1. Trial bottle free. Sold by James H. Williams. m

HANDSOME IMPORTED GERMAN COACH STALLION

JACOB 762

is a handsome solid seal brown, about 16 hands high, weight 1300 pounds and has no equal as to style and action; steps like a trotting bred horse in harness, pulls his knees and hocks in elegant style—head and tail style is extra fine.

After the season of 1910 was over I broke Jacob to work, he being no trouble to work anywhere and a natural work horse—not afraid of steam mills. We worked him in our team out with our threshing machine and from that in the log wagon in the woods, he filling the place of any mule or horse, working perfectly peaceable, quiet and being a fine puller. We worked him on the farm both single and double, plowing him in the field with other horses, and using him for our family driving horse, my wife driving him by herself on different occasions. You find Jacob a much quieter and nicer performer than last year, as he has improved wonderfully in manners and has had one year's steady work and training. He has proved himself a sure breeder having last year made a per centage of 76 3-4 per cent. and is in better shape for the season of 1911 than ever before. One of his two-year-old colts sold last spring for \$200.00 and a three-year-old for \$250.00 and another for \$200.00, this being a fine demonstration of his breeding.

TERMS:—He will make the season of 1911 at Whitesville, Ky., at Kelley's Stable at \$12.50 to insure colt to stand and suck. Money strictly due when colt is foaled or mare parted with. Care taken to avoid accidents but not responsible should any occur.

The Celebrated Jack

LIBERTY WOOD MAMMOTH

Will make the present season of 1911 at Whitesville, Ky., at Kelley's Stable. He will be permitted to serve mares at \$10.00 to insure a colt to stand and suck. Money strictly due when colt is foaled or mare parted with. Care taken to prevent accidents but not responsible should any occur.

DESCRIPTION AND PEDIGREE.

LIBERTY WOOD MAMMOTH is a fine young jack, coming 4 years old. This is his first season, while he has been tried and proved himself a sure foal getter and a fine breeder, covering at a two-year-old four good mares and getting all of them in foal the first service, and three of them black mare mules and two of them selling at weaning time for \$100.00 each, one for \$95.00 and the horse mule for \$85.00 cash. Last spring **LIBERTY WOOD MAMMOTH** was permitted to serve seven good mares and six of them are safe in foal.

LIBERTY WOOD MAMMOTH is a good, clean young jack, about 14 3-4 hands high, dark color with white points, fine head and ears, good bone and fine style and is very ambitious and he measures to make 15 1-4 hands jack. He has a brother, Rowdy Silver Crown, standing under standard, 16 1-4 hands high and weighing 1260 pounds and never was defeated in a show in his life and won the great honor of sweepstake premium at the Leitchfield Fair in 1910, among numbers of other fine jacks. While **LIBERTY WOOD MAMMOTH** is not the largest jack you ever saw at his age, he is out of a large family and has a promising future before him. He was sired by big Mack Wood, he standing 16 hands high standard measure and weighing 1,250 pounds, and one of Boyd county's noted jacks, and a fine producer, he by Goble Wood, a black jack, white points, 15 1-2 hands high standard measure, he by Governor Wood, an imported black Mammoth jack with white points, he being one among the best jacks that was ever imported to this country, almost 16 1-2 hands high with plenty of body, style and a noted producer and owned by Mackelroy Bros., of Boyd county.

First dam Queen King, black with white tips, 15 hands high with plenty of body and bone and never was defeated in a show ring in her life. She by Simes Giant, an imported black Spanish jack, a very fine breeder and a great show jack, one of Washington county's favorites. Second dam Ruth Wood, black with white tips, 15 1-4 hands high and has proven herself a great show jennet and has raised a noted family. She by Jimbow King, black with white tips, and a wonderful producer, he by Limestone Valley.

'SAFE AND SANE FOURTH' PUTS 'EM OUT OF GAME

Big Pain Company, Largest Manufacturers of Fireworks, is Being Dissolved.

New York, March 15.—The movement for a "safe Fourth," generally understood to be a systematic attempt to separate small boys from big fire crackers, has put the largest manufacturers of fireworks out of business.

The Pain Manufacturing Company, a \$50,000 corporation, to-day applied to Supreme Court Justice Guy for leave to dissolve, and assigned this reason as cause for the proposal. An order calling upon all persons interested to show cause on May 10 why the company should not be dissolved was signed by the Court.

"The season for the business of the corporation does not commence until June and runs for several months," the Directors state in the application. "The most business is done around and immediately prior to July 4. But for the past few years and since the movement for what is commonly termed a 'safe Fourth' has spread over the country, the volume of business done has been reduced so that at present the amount of business the company is able to do is not sufficient to warrant the continuance of business."

The liabilities of the company are said to be \$60,000 and the real assets about \$30,000.

For Diseases of the Skin.

Nearly all diseases of the skin such as eczema, tetter, salt rheum and barbers' itch, are characterized by an intense itching and smarting, which often makes life a burden and disturbs sleep and rest. Quick relief may be had by applying Chamberlain's Salve. It allays the itching and smarting almost instantly. Many cases have been cured by its use. For sale by all dealers. m

AWFULLY BURNED WHILE SEATED BEFORE A GRATE

Central City, Ky., March 16.—Mary Ann McGrill, forty-five years old, and the wife of Pat McGrill, a coal miner here, was burned almost to a crisp shortly after 1 o'clock this afternoon, and it is not thought that she can live through the night.

Mrs. McGrill was seated before an open grate, when her skirt became ignited. She dashed from the room and into the yard at the rear of her home, where the wind fanned the flames and made her clothing burn more rapidly. Within a few moments and before her terrified screams brought assistance, every vestige of her clothing had been consumed and her entire body was burned to a crisp.

She was taken into her home by John Halley, who had attempted to reach her in time to render some aid, and physicians were summoned, but they stated that her burns were so general that it will be impossible for her to survive them and that

when reaction begins, her death will at once follow.

Mrs. McGrill is the mother of two daughters, one of whom is fifteen and the other seventeen years of age. She also has a son, who is thirteen years of age.

Death Relieves Sufferer.

Central City, Ky., March 17.—Mrs. Mary A. McGrill, who was so frightfully burned at about noon yesterday, by her clothing catching fire from an open grate, died at midnight at her home here last night. Mrs. McGrill was fifty years old and leaves a husband and three children, two daughters, aged fifteen and seventeen. She was an exemplary woman and a consistent member of the Catholic church all her life. Her remains were laid to rest in Fairmount cemetery at 2:30 p. m. today, followed by her many friends. This is the fourth woman to be burned to death here in the last five or six years.

HEFLIN.

Mr. Joe Thomasson and daughter Eva, of this place, went Sunday to see his daughter at Hartford, who is attending school there, and has been very ill, but is better now.

Mr. N. G. Higgs, who was at Madisonville attending the W. O. W. State meeting, returned home Thursday.

Mr. and Mrs. Lewis Easterday visited their daughter, Mrs. C. B. Ross, at Kronos, Saturday and Sunday.

Mrs. Ethel Johnson and Mrs. Mary Riggs, of —, spent Sunday afternoon with Mrs. Esther Russell, of this place.

Mrs. Mollie Ellis and son Edward visited her daughter, Mrs. Clarence Patton, near Livermore, Saturday and Sunday.

HAS A COW THAT WEEPS —SHE WAS COMFORTED

Wilson, Ky., March 18.—Perhaps you have heard of the triplet farm at Dixie, this county, and the laughing cats of Winsted, Conn., but here is something real, downright, sure-enough extraordinary.

Logan Swope's faithful milch cow refused to eat or drink water. Swope tried to milk her, but she refused to be pailed. She would not stand still when he tried to milk her, and he was afraid to resort to force unless he were able to tie both of her hind legs to the ground.

Perplexed by the actions of the cow, Swope looked her over, thinking he might diagnose the trouble. He discovered the animal was shedding tears copiously.

Then the farmer began to wonder. All at once it occurred to him that the cow's calf had died a few days before. She was simply undergoing a severe attack of grief.

Swope borrowed a calf from a neighbor and put it in the lot with the weeping cow. In a few hours the cow was in a sunny mood and could be milked by an eight-year-old child.

Heavy Rollers at St. Helena.

If the sea were to break on the shores of Coney Island in time of calm weather with the same force as it does on the shores of St. Helena sections of South Brooklyn would be uninhabitable in all likelihood. They have at St. Helena what are known as calemmas, or heavy rollers. These rollers are particularly bad in time of calm weather. They strike the island with such tremendous force that the spray is sent over Goat Pound ridge, which is several feet above sea level. Scientists are of opinion the calemmas are caused by seismic disturbances beneath the ocean.—Exchange.

His Record Not Clear.

Charles Smith, a jovial negro, was arraigned before Judge Fawcett in the county court, Brooklyn, on a minor charge.

"Smith," asked the court, "did you ever commit a crime before?" The negro pondered for a moment. "Well, yo' bonah," he answered slowly. "Ah can't zactly say, but Ah done not married one time."—New York Times.

Plenty of Company.
